

Lion Wharf - Credit Billing

Billing and payment services for heating & hot water

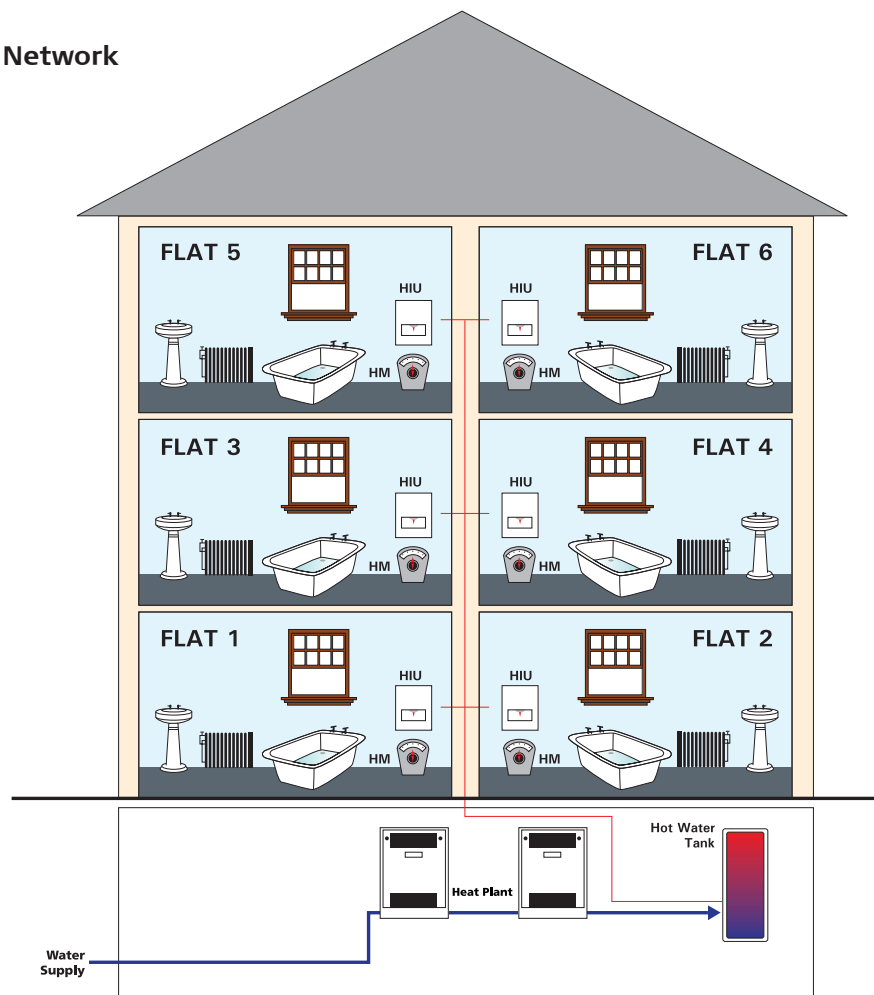

All you need to know

Introduction

Welcome to Lion Wharf - Credit Billing.

Your new home is served by a low carbon heating and hot water district heat network which is generated in a communal plant room, powered by gas boilers. Your heating system is robust, reliable and controllable. You can control the heat level through your thermostat and heating controls in the same way as if you had an individual gas boiler in your property. Your hot water is provided on demand and you only pay for what you use.

District Heat Network

What is a District Heat Network?

Rather than have an individual gas boiler in every home, a district heat network uses a centralised communal boiler to provide heat for a whole development or for several homes in a development.

The centralised boiler is usually located in a basement or external plant room. Your heat supplier Lion Wharf (Isleworth) Management Company Ltd, manages the bulk energy supply to the plant room at your development. The communal boiler turns the energy into hot water and pumps it via an infrastructure of pipes around your development, passing through a heat exchanger or HIU (Hydraulic Interface Unit) at each property.

This heat exchanger or HIU (Hydraulic Interface Unit) brings the heating and hot water into your home.

The amount you pay for your heating and hot water will depend on the amount you use. You will also be charged a daily standing charge which is a fixed charge per day for your connection to the district heat network. This daily standing charge is payable regardless of whether you consume any heating or hot water, as per a direct connection to an energy supplier. Lion Wharf (Isleworth) Management Company Ltd has appointed Insite as the metering and billing agent for Lion Wharf - Credit Billing.

Lion Wharf (Isleworth) Management Company Ltd provides Insite with remote actual readings from your heat meter every month. We then send monthly bills to your home for your actual heating and hot water consumption, using the remote readings, plus a daily standing charge which is a fixed charge per day for your connection to the district heat network. If at any time Lion Wharf (Isleworth) Management Company Ltd is unable to provide us with actual meter readings, Insite will send you a bill based on an estimated read..

You can find out more about how your heat tariff and daily standing charge are calculated and when they are updated in the "Understanding Your Heat Charges" information guide.

Insite and You

Insite is a metering and billing agent for many district heat network suppliers around the UK. We work on behalf of the suppliers such as Lion Wharf (Isleworth) Management Company Ltd to provide billing and payment services to their residents.

Insite has been appointed by Lion Wharf (Isleworth) Management Company Ltd to manage your heat payments.

What to do if you have a fault with your heating

Lion Wharf (Isleworth) Management Company Ltd owns and operates your district heat network. If you have a problem with your heating, please call 0345 873 6692. Insite can only help you with billing and payment issues.

These tips might help:

2. Refer to the Residents' handbook provided by Lion Wharf (Isleworth) Management Company Ltd for further advice.
3. If your heating is still not working, please call 0345 873 6692.

What to do if you are moving out

If you are moving out of your home, you must ensure that you inform Insite and Lion Wharf (Isleworth) Management Company Ltd, so that a final bill can be sent to you. You should check your final meter reading and confirm the date that you are leaving the property. You will also be asked to provide a forwarding address so that your final bill can be sent to you.

Understanding your heating and hot water bill

Lion Wharf (Isleworth) Management Company Ltd has instructed Insite to send you a monthly bill to charge you for your actual consumption of heating and hot water. Each month Lion Wharf (Isleworth) Management Company Ltd provides Insite with remote readings from your heat meter which measures your consumption of heating and hot water. We will use that meter reading to calculate what you owe.

Your bill contains various information to show you what you have consumed, what the charges are and how you can make payments.
